

Internal tangents to circles of unequal size

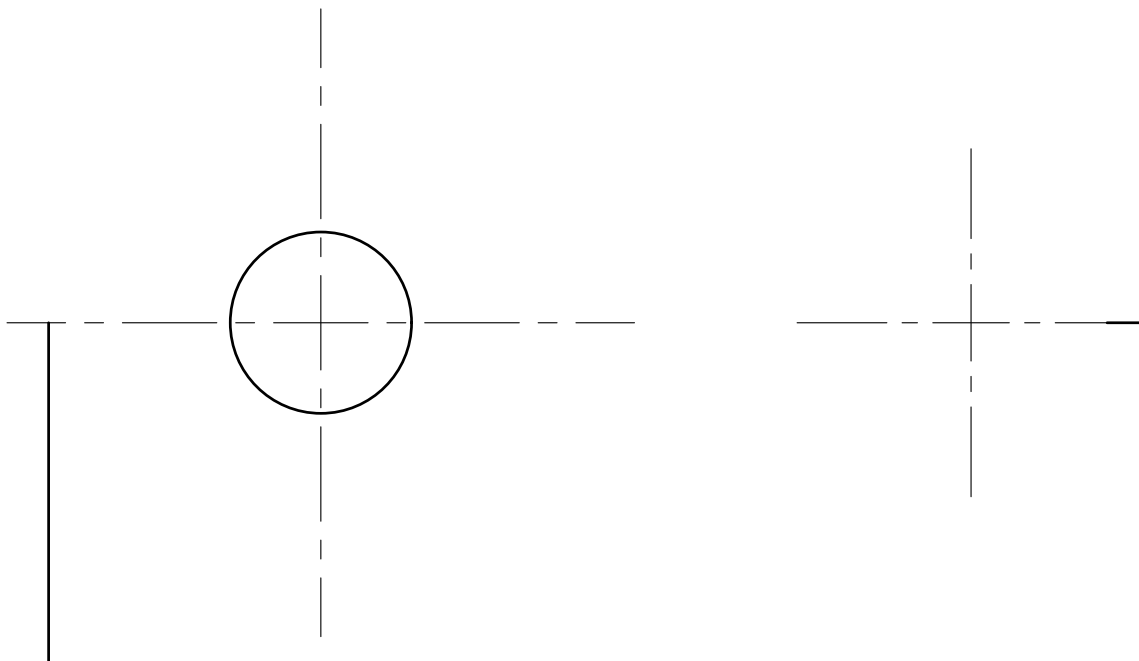

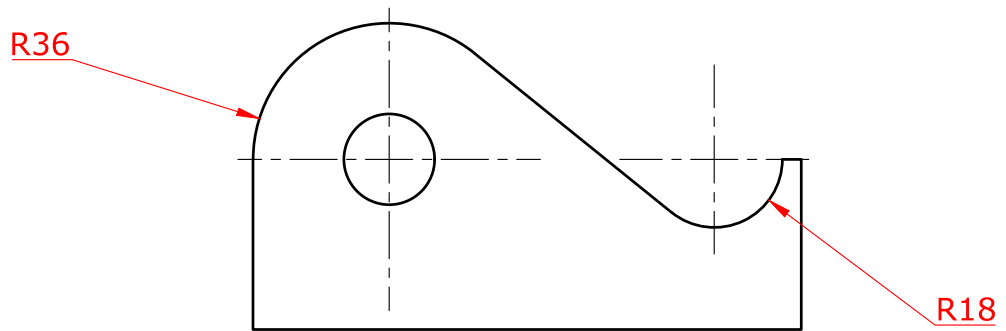

In these exercises you are required to draw internal / transverse tangents to circles of different diameter.

You can visit: https://youtu.be/pmqcdL_MVk0 for a step by step video of the construction method.

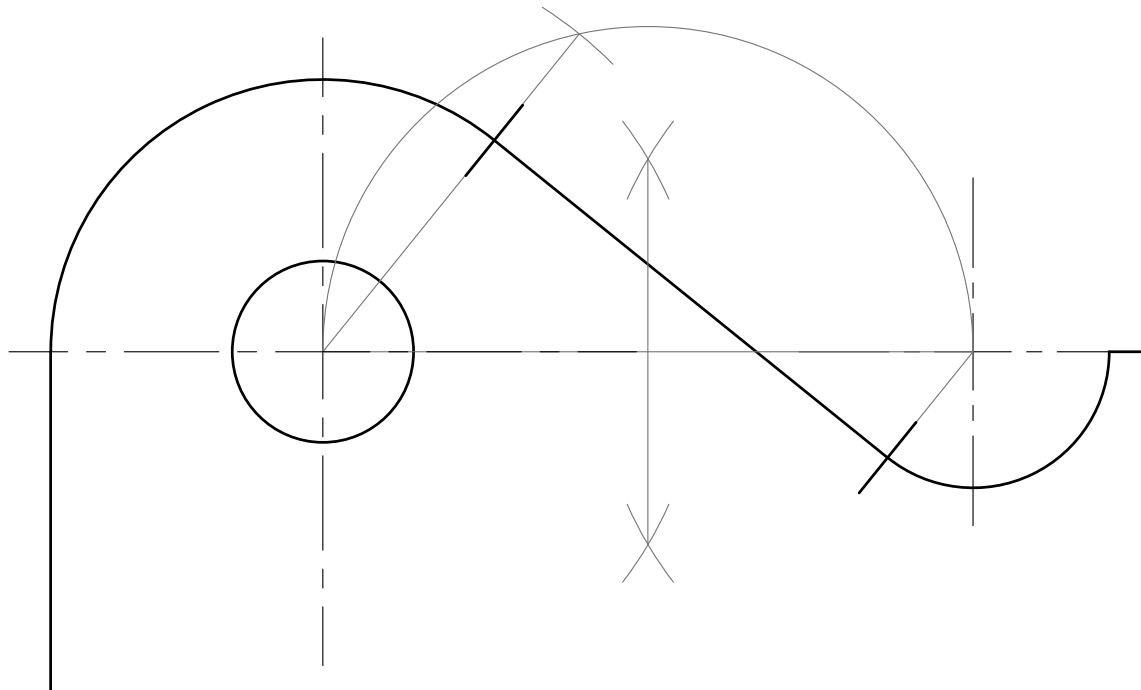

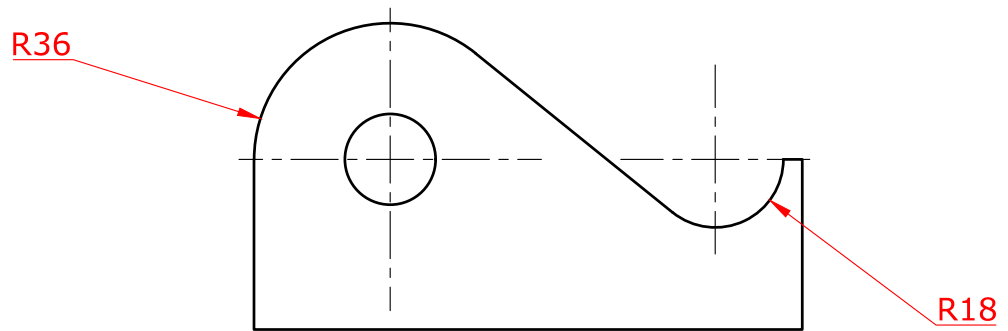

Internal tangents to circles of unequal size - STARTER SHEET

The diagram shows the profile of a desk adhesive tape dispenser. Complete the enlarged profile by drawing the missing arcs and the internal tangent between them. Mark off the points of tangency by a short dash.
