

Creating shapes using the tangram puzzle.

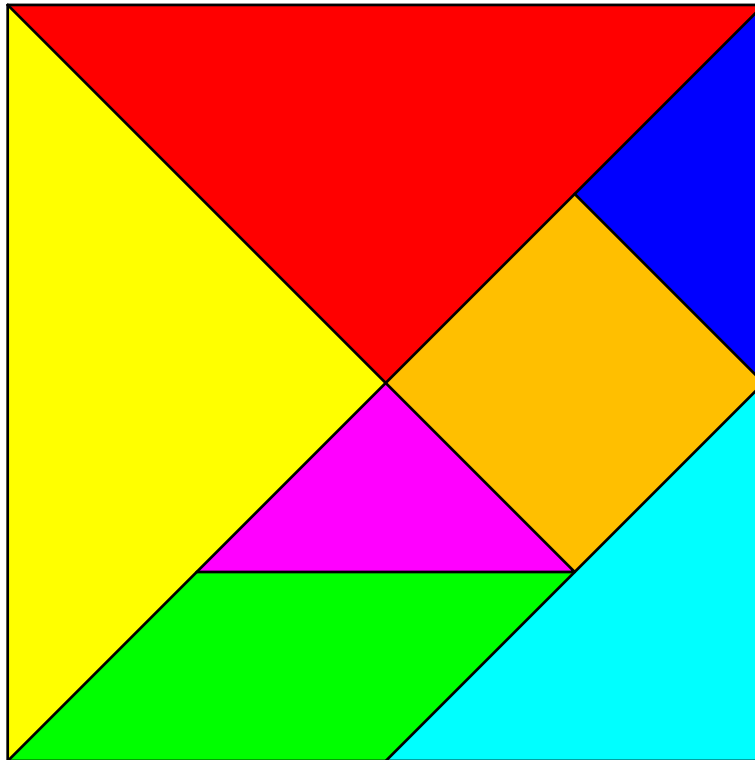

The tangram puzzle is a perfect square that is cut along to produce special shapes, like other squares, triangles and paralellogram. The aim of the game is to make as many shapes as possible. You can only use each piece once.

We recommend that you print out the tangram, paste it on a piece of cardboard and then cut out the different parts.

Creating shapes using the tangram puzzle - STARTER SHEET

Use the square shown below, and try out different ideas. This puzzle involves cutting and rearranging. Remember that you can only use the each shape only once. Good luck.

Creating shapes using the tangram puzzle - ANSWER SHEET
